

## Epic Hand 1/21/2022

I will start with the most epic hand we have ever had. Epic, being by far the largest single pot the rebuy club has seen in its history. I tend to think it will never be broken.

These kinds of records only get set past 2am, so those who want to have some semblance of a functioning Saturday will not see them.

The record was shattered by being close to 50 percent more than last year's record.

It was between 2 large stacks and 2 people who tend to mix it up. It is no surprise that the 2 people battling were Dennis and Mike.

Below is a recap:

Preflop Mike raises to a reasonable 2.75 bet, Dennis re-raises to 5.00, Mike goes 14.50, and Dennis calls.

Flop is 6c, 2d, Qc. Dennis hits the top pair with the best kicker. Mike hits the bottom pair and a flush draw.

Dennis leads out with a pot-size bet of 35.25, and Mike calls.

Turn is an As. They both have 2 pair, Dennis with top 2. Dennis again leads out with a pot size bet of 105.75. Mike calls.

The river is the Kc. Dennis slows down and only bets 15 percent of pot, or \$50. Mike goes on top for another \$140. Dennis calls.

The total pot size was \$699.07. To put that in perspective, if you are at a \$1-\$2 game in a casino, the equivalent pot would be \$2,800, 1,400 times the big blind.

I'm not sure what the peanut gallery was thinking when this hand was happening.
